BANGOR AIR TIGHT COOKSTOVE

BANGOR AIR-TIGHT

COOKING STOVE!

THE Best Cook Stove ever introduced to this or any other people.

Having secured the sole agency of this very desirable Stove I take great pleasure in offering to my customers and the public. This Stove was invented, expressly for this eastern market, by persons who have had years experience in the business, and who know, and have appreciated the wants of this enlightened people. They now offered to the public with the full confidence in its merits, and its superiority over every other Cooking apparatus ever introduced. Its convenience for Boiling, Broiling, Frying, &c., are not surpassed, and its extensive and beautiful Oven for Baking and Roasting will at once recommend itself to the Ladies. One very important feature is, it has very simple, and smooth castings, and being manufactured in this city, can always be repaired, if ever necessary, at a trifling expense without subjecting one to wait for castings to be sent for from New York, Rhode Island, or elsewhere. Every Stove is warranted one year, and one satisfying entire satisfaction may be returned and the money will be refunded after 30 days trial.

A great variety of other patterns of cooking Stoves, such as the Our State, Bay State, Empire State, Granite State, State of Maine, &c. All or any of which will be sold at extremely low prices.

Elevated Oven Stoves—Hampden Parlor Stove, and two Ovens—Boston two oven Stoves, Forrest City of Stove for Cooking or warming purposes, of novel and beautiful patterns of Parlor Cook Stove, and in fact every variety and Furnace Pattern, can be found at the Central Street Stove Warehouse.

CULVER'S COAL FURNACE

BOSTON.

ALL the various approved trusses constantly for sale. Ladies waited on by Mrs. CAROLINE D. FOSTER, who has had twenty years experience in the business.

Strangers in the city will please take notice the odd numbers and the even numbers are on opposite sides of the street, it being 416 opposite to the subscriber's residence 467, where he will keep a full supply of Ready Made Trusses, for Gentlemen and Ladies, Youths and Infants. Abdominal Supports of five or six different kinds, and such as Hulls, Chapin's Spinal, Cutter's, Fitch's, Ingall's, &c., &c.

☞ Ladies waited upon by Mrs Caroline D. Foster at the above place.

The following certificate from Dr John C Warren of Boston, was given 16 years since, but will last forever.

BOSTON, January 7, 1836.

Having had occasion to observe that some persons afflicted with Hernia, have suffered much from the want of a skilful artificer in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J. F. Foster, to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am well satisfied that Mr. Foster is well acquainted with the mental nature of those instruments, and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public, as a person well fitted to supply their wants in regard to those important articles.

JOHN C. WARREN, M D, Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary.

The undersigned having occasion to employ Mr. J. Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him to the favorable notice of such persons as may be afflicted with that and similar complaints. Mr. Foster's success in the manufacture, and adapting them to the body, giving ease and comfort to the wearer, surpasses (as far as our experience goes,) any other manufacturer of the article.

The numerous testimonials which he has received, together with the recommendations of that eminent surgeon, Dr J C Warren, are a sufficient guaranty for all who may favor Mr F. that his instruments will give entire satisfaction, and he will satisfy all reasonable demands for an equitable compensation.

MERELY NOMINAL RATES.

1. *The London Quarterly Review,* (Conservative.)
2. *The Edinburgh Review* (Whig)
3. *The North British Review,* (Free Church.)
4. *The Westminster Review* (Liberal.)
5. *Blackwood's Edinburgh Magazine,* (Tory.)

ALTHOUGH these works are distinguished by the political shades above indicated yet political subjects. It is their literary character which gives them their chief value, and in that they stand conspicuously for above all other journals of their class. *Blackwood*, still under the fatherly care of Christopher North, maintains its ancient celebrity, and is at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Coxtons" and "My Novel," (both by Bulwer,) "The Green Hand," "Katie Stewart," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by Messrs Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

TERMS.

For any of the four Reviews	Per ann $5.00
For any two of the four Reviews,	5.00
For any three of the four Reviews,	7.00
For all four of the Reviews	8.00
For Blackwood's Magazine	3.00
For Blackwood and three Reviews	9.00
For Blackwood and the four Reviews	10.00

Payment to be made in all cases in advance. Money current in the State where issued will be received at par.

CLUBBING.

A discount of twenty-five per cent from the above prices will be allowed to Clubs ordering four or more copies of any one or more of the above works. Thus: Four copies of Blackwood, or of one Review, will be sent to one address for $9, four copies of the four Reviews and Blackwood for $30, and so on.

REDUCED POSTAGE.

The following table will show the great reduction which has been made on these Periodicals since 1847, and the very trifling rates now charged.

	Per annum.
Prior to 1847 the postage on Blackwood was	$2.40
on a Review,	60
In 1847—52 (average rate) on Blackwood	1.44
on a Review	36
The present postage on Blackwood is	24
on a Review	12

(The rates are now uniform for ALL DISTANCES within the United States.)

As these rates surely no objection should be made to receiving the works by mail, and thus enjoying their speedy, safe, and regular delivery.

To the Hon. Senate and House of Representatives of the State of Maine.

THE undersigned, citizens of Bangor, would respectfully represent that the public convenience requires the establishment of a Steam Ferry across the Penobscot river in Bangor, below and near the mouth of the Kenduskeag stream.

They therefore pray that they may be incorporated into a Company for that purpose with power to take toll under such terms and conditions as to your Hon. body may seem fit and proper.

To the Hon. the Senate and House of Representatives of the State of Maine.

THE undersigned, citizens of Orono and Bangor, in the County of Penobscot, Millowners and Lumbermen, respectfully represent that a log sluice by the dam on the Stillwater Branch of the Penobscot River, at Upper Stillwater village, in Old Town, would be greatly for the benefit of the lumbering interest in this section.

They therefore ask, that Gideon Mayo, E. Webster Jr, John Libbey, A C Buffum, B F. Gilman and Daniel White, be incorporated under the name of the Orono Log Sluice Company, and authorized to erect and maintain said log sluice, with power to collect such reasonable toll on all logs and other lumber passing through the same, as shall be deemed just, and in duty bound will ever pray.

DR. MORSE'S

INVIGORATING CORDIAL!

FOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL LOSSES, &c. The astonishing success which has attended this invaluable medicine, for *Loss of Muscular Energy, Physical Lassitude, and General Prostration*, or any of the consequences of youthful indiscretion, or indulgence of the passions in later years, renders it the most valuable preparation ever discovered. In fact as a remedy for the above complaints it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The WONDERFUL VEGETABLE PRODUCTION of which this medicine is composed has been tested and its nature proclaimed by the highest authorities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS HEAD and MIND COMPLAINTS—the mental physic so long sought for and never before found, the only agent that can administer to MIND DISEASES. It will remove all nervous affections, LEARN, frequency to study or business, loss of MEMORY CONFUSION, thoughts of self destruction, fear of insanity, &c. It will restore the appetite, restore the health of those who have destroyed it by Sensual Excesses, or evil practices in life, &c., which unfitted them for the married state. It has been said by some that these disorders, emissions, &c., were incurable; this however is not the fact, and we unhesitatingly confirm the assertion that the medical and healthy management of the unfortunate sufferer, as the following testimony of the names received will conclusively show:

Dr. Woodward of the Massachusetts Insane Hospital, writes of one of his patients being cured by using this cordial, thus—Rather me pleasure to inform you that one of my patients who was in Boston, procured some of your Cordial. He informed me that he had not had a single emission since he commenced taking it, which he performed two or three weeks. When he applied in Boston, he was in a very low state of health, and was not able to walk. He appeared to be sinking fast, and I thought it hardly possible for him to recover. I prescribed the usual medicines, but they produced no effect. In the meantime he procured some of your Cordial, which he affirmed saved his life. I am free to say that I know of no other medicine would. I shall ever recommend it whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to deter the publication of certificates of course out of the question, and the proprietor has produced a few of the most conclusive testimonials he could obtained, but of the hundreds bitterly spoken of its positive and speedy benefits upon its patients are to be found the happy parents of healthy offsprings, who would not have been, but for this extraordinary preparation. And it is equally potent for many diseases as for which it is recommended.

THE MEDICAL JOURNALS have not in a single instance, since this has been authenticated, given their sanction to any other preparation for the above complaints. It has, in many violent and desperate cases effected cures after patients had been abandoned and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION

Of those who have used this Extract is—"I had heard of it, and jeeringly spoken of, but was one of the incredulous to give it a trial, having tried various medicines sold for the same purpose, (different Sarsaparillas) without deriving any benefit. I had not the slightest hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but I was induced to try it, and am now a stronger, I have had no return of the trouble since, although it is three weeks ago."

Another says—"I had consulted several distinguished physicians. Some said I could not be cured, others pronounced this to be incurable, and that but I found no relief until I procured some of your Cordial. I must say it completely cured me."

A gentleman—"I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me much expense, much care of mind and bodily suffering.

CAUTION—Ask for Dr. Morse's Cordial and take no other, as there are worthless imitations which trade on the reputation of this popular, long established excellence, fame and popularity. Some have attempted to imitate it, but not the most delicate Female, but do good. B wise of all other Cordials, &c., &c.

Persons who desire more information can consult Dr. Morse personally or by letter (post paid) at his office, 76 Sudbury street, Boston. The necessary advice and medicine for the speedy removal of such disability will be safely forwarded to the writer's address.

Dr Morse is prepared to warrant a perfect cure in every case or take no pay.

Prepared by M. Morse, M. D., New York city.

It is put up in pint bottles, with the words Dr. Morse's Invigorating Cordial, blown in the glass. Price $1 per bottle, 2 bottles $5, 6 bottles $10, and $25 per dozen.

N B. In all cases advice accompanying each bottle.

Celebrated Indian Doctor,

JOS. SAUKABASIN,

HAVING stated himself of the medical knowledge of the tribe when composed the original inhabitants of this country, and having by upwards of twenty years experience gained a knowledge of the most perfect combination of the vegetable substances which are the growth and natural remedy for the diseases of the climate, offers his services in all disorders. He has in his possession a great number of certificates, testifying to the highly beneficial and often sudden effects of his medicines. From a very large number of certificates he selects the following.

BREWER, July 8, 1846.

To whom it may concern.—This will certify that I had a severe attack of the Rheumatism in my hip. I tried every means to cure it, but it grew worse and worse for three months, when I applied to Dr. JOSEPH SAUKABASIN, one of the Penobscot tribe of Indians, who cured me entirely and in a very short time, and I have never been troubled with it since. And I feel it due to him and to the community to recommend him as a safe and skillful physician.

BENJAMIN SNOW.

This will certify that I was afflicted for over thirty years with a Scrofulous humor in my leg, and I applied to four or five physicians, and got no relief until I fell in with JOSEPH SAUKABASIN, and he gave me one bottle of his medicine, and cured me so it has troubled me none since, my ankle is perfectly sound. My daughter Hannah was afflicted with a Cough, and Spitting of Blood, and by taking his medicine was cured. SYLVANUS COOMBS.

Boston, August 15, 1842.

HOLDEN, Dec. 3, 1852.

Dr Saukabasin—Dear Sir: I feel it a duty to give you my best thanks for curing my wife of a disease of long standing—a dropical complaint—and I believe if it had been for your medicine she now would have been in her grave. ANDREW L. PINKHAM.

December 7th, 1852.—I feel perfectly satisfied that Dr. Joseph Saurabasin has cured my boy on a fever sore, when other doctors gave him up. NATHAN DYER.

He has located himself in Brewer, above the Toll Bridge where he may be consulted by mail or otherwise, and will be frequently in Bangor.

Steam Ferry.

We agree entirely with the Democrat, in the necessity and convenience of a steam ferry between this city and Brewer. It would add essentially to the facilities for travelling and business, and also to the pleasures of our city, to have an elegant and expeditious steam ferry, with convenient spring-landings for entering the boat with carriages. The excursion across the river, taking a view of its shipping, the lumber operations and all its activities, would be quite a stirring pleasure excursion, and would doubtless become a popular one with the people on both sides of the river. In order to remove all objections to this enterprise of a steam ferry between this city and Brewer, it will be necessary to remove it down river from the present location of the boat-ferry, to a point somewhere below the steamboat wharves. This would remove entirely the objection of its interfering with the vessels about the mouth of the Penobscot, while its general accommodation to the public would not be lessened essentially.

We understand that this enterprise has received a very general approbation of the citizens of Bangor and Brewer and other places interested, in the way of petitions, and that there is no good and valid objection against the enterprise going into immediate effect, by the building of a boat and the spring-slips and all the needed structures, so that the ferry may be in successful operation in the course of the approaching summer.

The proposition of Messrs. Alden and Eddy, for the immediate construction of a line of railroad to the Pacific, has been reported favorably by a committee of Congress. We trust that in this thing, the people are to be satisfied with the prompt action of their public servants. We have never known a proposition before Congress, in which so large a number of persons, had an interest, public and private, political, financial and social, as in this telegraph. The plan is unincumbered by land or other slow coach affair. It is itself and go speedily; to be done at once and satisfactorily. There will be a jubilee among the Californians and with their other friends on the Atlantic slope, if Congress, before Government, will give assurance, by voting for the Telegraph, that in eighteen months the lightning shall flash from the Pacific to the Atlantic.

☞ An experienced practical farmer says the "bog meadows" of New England, the "muck and "muck beds" are the el-Dorados of New England—more valuable than the rich and virgin gold mines of California; for these we can enrich our fields to the utmost extent. To reclaim these lands, the chief thing is are, first, to drain; secondly, to drain thoroughly; thirdly, to drain thoroughly: for unless these lands are well and thoroughly drained, it is useless to expect much improvement. And then, if pains are well taken, the products of these drains, converted into manure, are equal to the best manures.

☞ The principal practical aim of the National Agricultural Society which recently held its meeting at Washington, is the establishment of another Department of the Government, to be entitled the Agricultural Department. We trust they will succeed in this, for we think it is that something is needed in this way to organize the agricultural interests and give them a right direction in the way of government. An Agricultural Bureau would seem to tend to this in an important degree.

☞ The nomination of Mr. Samuel Medary for Postmaster General is bitterly opposed by the Allen portion of the Ohio Democracy. The Cincinnati Enquirer, unquestionably the most vigorous Democratic journal in the State, denounces Medary in strong terms as incapable and corrupt. The Enquirer attributes Medary's hostility to Allen to the alleged fact that the latter refused to employ his Senatorial influence to aid Medary in consummating certain copper speculations in Northern Michigan.

☞ The coinage of the United States Mint during the year 1852, was over fifty millions of dollars, nearly all of which was the fruit of the California mines. In addition to this, those auriferous regions supplied many more millions to other parts of the world. The export of gold from Australia during the year ending in October, 1852, was £3,863,000, or about forty-five millions of dollars. From this data, we assume that the combined yield of gold from California and Australia, has not been the past year, and will not be the coming year, less than one hundred million of dollars.

☞ The New York Tribune says that the election of Charles Chapman, of Connecticut, clerk of the House for the first time since the commencement of his term. Mr. Chapman was secretary of the Corwin Investigation Committee, and his remarks were in reply to a vindication received from Edson B. Olds, one of the prominent Democratic members of the House. In a most severe and pertinent manner, Mr. Chapman "took the starch out" of Mr. Olds, and held him up for the House to gaze at.

☞ The Washington correspondent of the New York Herald writes thus—"Letters have been received here stating that General Pierce will leave Concord about the 15th, *enroute* for Washington. Rooms have been provided for him at Willard's. It is said that he will probably proceed to the Hall of the House of Representatives, and there read his inaugural address and take the oath of office, without the assistance of a score of marshals and a mob at his heels."

☞ One of the oldest steamboat owners on the North River, has been heard to predict that in nine years from the present time, there will not be a steamer on the Hudson; they would disappear sooner than that, but nine years was the utmost limit. "Say what you will," said he, "people prefer the railroads, and the boats must die."

☞ Several young men have this week left this city for Australia, and within the week past, it is stated that about thirty men from this vicinity, have left for the gold regions of Australia and California. The case is similar in other parts of the State. Recently returned Californians very strongly advise that every man who can get a comfortable living in New England, to remain at home. Thousands on thousands who are now in California, would immediately return home if they could.

FORRESTER'S BOYS AND GIRLS MAGAZINE. We have often spoken of the excellence of this very agreeable monthly publication, issued regularly in Boston, by Henry V. Degen, and delivered in this city by the agent, Mr. J. Phillips. The January number, now before us contains a portrait of Daniel Webster, a noble head. The contents are lively and interesting and well calculated to interest the children and youth of the country. The price is only one dollar and twenty-five cents in advance, and nobody should think of subscribing to such a publication without paying in advance.

☞ The Athens, Ohio, Messenger says, French, Dodge & Co., will in three weeks have workmen employed on the entire line of the new railroad between Marietta and Vinton Co line. A large portion of the work is already sub-let to responsible and energetic contractors, many of whom have commenced active operations. The present winter has been very favorable thus far for the contractors.

Lecture on Reading.

Rev. Professor Shepard will lecture on this evening at the Vestry of the Central Church, on the subject of reading. This lecture will be well worth the money, and then, too, it should be remembered that the proceeds will go to the ladies, for the purpose of enabling them to do something towards furnishing the Church.

☞ There is a merchant in Baltimore, who, in adopting certain rules for his future guidance, resolved, many years since, that he would never be worth more than five thousand dollars. It is said, in accordance with this resolution, that he has given away many thousand dollars, and not less than $24,000 for the promotion of the Gospel. His donations are made under an assumed name, and very few persons know who the real giver is.

☞ Gustave Krollman, the violinist, and husband of Miss Mary Shaw, the well known vocalist, died at Berbice in the West Indies, on the 20th December last. He was well and favorably known as a fine musician and a master of his instrument. Miss Krollman is now on her way to this country.

☞ It appears from the Massachusetts registry of births and deaths for 1851, that the duration of the lives of agriculturists was 12 years above the general average, nearly 19 above that of common laborers, and 18 per cent above the average age at death of mechanics.

☞ At the Court of Common Pleas for Essex last week, in the case of James D. Howard, indicted for cheating by false pretences, and pleading to the jurisdiction of Lowell, the Jury returned a verdict against the plaintiff, and sentenced the defendent to three years hard labor in the State Prison.

☞ Some idea of the business done at Melbourne, Australia, may be obtained from the fact that the *Argus* of that place, of Sept. 1st, a daily paper, contains over forty-two columns of advertisements seven of which are auction sales.

☞ A wood-sawyer has petitioned the Ohio Legislature for indemnity for his saw-horse, valued at seventy-five cents, which was broken by one of the Representatives over the head of an assailant.

☞ Sheriff Orser of New York, has received instructions from the Executive Department, requiring that in the future all executions for capital offences shall be strictly private.

☞ The steamship Georgia, which sailed from New York for Aspinwall on Saturday last, had on board nine hundred and sixty passengers.

☞ Three lady spankers recently addressed a public temperance meeting in the city of New York.

☞ Mr. E. F. Duren has received the Mother's Magazine for February.

☞ The President and Directors of the Bangor Gas Light Company, whose works now prove so very satisfactory to our citizens, have passed the following resolve, as a well deserved compliment to Mr. Macy and a thorough approval of his proceedings in the erection of the Gas Works in this city.

Resolved, That the works erected by E. G. Macy, Esq., contracted for by the Bangor Gas Light Company, have been well and thoroughly built, that the Directors are well satisfied with the manner in which Mr. Macy has fulfilled his contract, and they cheerfully recommend him to any other companies about erecting similar works, not only as a thorough workman, but a liberal, prompt and energetic contractor.

WASHINGTON, Feb. 8.

Mr. Weller, of California, reported a bill granting lands to aid the building of a telegraph to the Pacific, which was made the special order for Monday.

Mr. Weller, from the Committee on Territories, made a full and favorable report on the memorial of Messrs. Alden and Eddy for the right of way and a grant of land for building a telegraph from the Mississippi to the Pacific, accompanied by a bill, and moved that it be made the special order as soon as printed.

The provisions of the bill are in accordance with the memorial of the petitioners. The conceded importance of the work and the urgency of its early completion will strongly commend it to the prompt, and it is believed the favorable action of Congress.

Returns from almost two-thirds of the Congregational churches in Massachusetts show the amount contributed to the 250,000 fund to build churches at the West, to be $20,647 39. From forty-five churches in New Hampshire $1159 16 has been received for the same object.

The owners of the emancipated slaves in the Danish West Indies are to receive fifty Spanish dollars per head for each emancipated slave.

☞ The New York Tribune gives a specimen of pretty plain talk in the following, to the citizens of Bangor. It may be that the Tribune people, many headed and many handed as they are, understand the whole merits of controversy here and are in the right. To us it appears otherwise. To us it seems that all pretences and pretexts are not sober realities.

The Tribune talks thus:—

"We see by the Maine papers that a foolish attempt is making to prevent a proper connection of the projected European and North American Railway from Halifax, at Bangor. The Bangor people, who control the charter of the line between the Penobscot and Kennebec Rivers, appear to entertain the preposterous idea that by throwing obstacles in the way of that connection, that trade and travel can be better concentrated and stopped at Bangor. We advise all gentlemen who have such poor souls as to be guided by considerations like these, or such contracted minds as to believe in their own reasonings, that they had better die as fast as possible, and leave money enough to pay the expense of burying them, for they are not worth interring at the public expense.

If a serious effort is really making to bring the Halifax road through to the Kennebec River, it is hardly conceivable that any interest on the route can be either so selfish or so short-sighted as to desire to dust impediments in its way."

SINGULAR MAPS OF AUSTRALIA. For three or four generation, the Dutch alone had any precise knowledge of Australia. The Dutch had eyes but they saw not. Their commander, Carston, sent out to explore the country, described it as consisting of "barren coasts shallow waters, island thinly peopled by cruel, poor and brutal natives—of very little use." The natives had not found the gold that Nature had thrown in the river beds and creeks, and the voyagers never suspected its existence. The people were hostile and ugly. They were no glittering chains as the natives of Peru did. The aspect of the coast was wild, gloomy barren; no tropical vegetation, no luscious fruits invited the strangers to prolong their stay, or penetrate the thick bush in search of mineral treasure. The Hollanders did not want land; they came in search of trade and gold, and finding neither of these, they threw away a continent as large as Europe in disgust.

EXTRAVAGANCE. Hon. John A. Dix in a recent lecture before the New York Historical Society, made the following very just remarks:

"Nothing can be more unwise than the erection of costly dwellings, which can only be maintained by princely fortunes. At the death of the head of the family, and the division of the ancestral property, no one of the children, as a general rule, has enough to support the establishment, and it passes into other hands. Nothing can be more cruel to children than to bring them up with expectation which cannot be fulfilled, and with habits of life they are not fitted to abandon. The parent, for the sake of a few years of ostentation invests a large portion of his estate in a splendid dwelling, with the certainty that he doubts will be the expulsion of his children from it. Nothing can be more inconsiderate that is done without reflection, or more unfeeling. It is with a full view of the inevitable consequences. I look for the splendid mansions of thirty years ago, and see what has become of them. Scarcely one remains in the family by which it was constructed. They are boarding-houses, places of public exhibition, or the workshops of fashion."

REWARD OF BRAVERY. A splendid silver mounted telescope has been received by the Collector of the port from England, for Capt. Drinkwater of Yarmouth, enclosed in an elegant mahogany case, upon which is the following inscription: "Presented by the Lords of the Admiralty of Great Britain and Ireland, to Captain Drinkwater, of the American barque Hero, for his gallant and humane conduct in saving the passengers and crew of the British barque Venilia, wrecked on the 13th of February, 1852."—Portland Argus.

A SHIPLOAD OF WIVES.—An immense emigrant ship, called the Caroline Chisholm, is about to sail from Southampton, England, for Australia, with nine hundred young women, who, having lived in Australia, is famous for her generous interest in a half of female emigrants to that country, will accompany them. The expectation is, that all these "gentle creatures" will be eagerly sought for in marriage by industrious and hardy miners, farmers and shopkeepers.

The Camanche Indians, according to a letter from an officer of the United States army, stationed in Western Texas, are in an extremely deplorable condition. Being hedged in by military posts, the buffalo nearly all gone, and the deer driven across the lines, they are almost in a state of starvation.—National Intelligencer.

It was stated at the recent meeting of the American Board of Missions, that since 1798 the United States had paid to the Indians in money $35,214,877, making an aggregate of $106,000,000.

The Country Doctor.

The following scene in the life of the country Doctor, is taken from the Knickerbocker:

The poor doctor is called from his bed on a stormy night with the stirring summons:

"Doctor, want you to come right straight away off to Hank's. His child is dead."

"Then why do you come?"

"He's p'isoned. They gin him laud'num for paregorick."

"How much have they given him?"

"Do'no. A great deal. Think he wont get over it."

The doctor pushes off through the storm, meets with divers mishaps by the way, and at length arrives at the house of his poisoned patient. He finds all closed—not a light to be seen.

"I knocked at the door, but no answer. I knocked furiously, and at last a nightcap appeared from the chamber window, and a woman's voice squeaked out—

"Who's there?"

"The doctor, to be sure; you sent for him.—What the dogs is the matter?"

"Oh it's no matter, doctor. Ephraim's better. We got a little *skeered* kinder. Gin him laud'num, and he step kind o' round, but he's woke up now."

"How much laudanum did he swallow?"

"Only two drops. 'Taint hurt him none.—Wonderful bad storm to-night."

The doctor turned away, buttoning up his overcoat under his throat, to seek his home again, and tries to whistle away mortification and anger, when the voice calls—

"Doctor, doctor?"

"What do you want?"

"You wont charge nothin' for this visit, will ye?"

"DIGEST!" Such is the true meaning of the word "PEPSIN," or of the two Greek words from which it is derived. This is the significant and appropriate title of the TRUE DIGESTIVE FLUID, or GASTRIC JUICE, prepared by Dr. J. S. HOUGHTON, of Philadelphia, from the fourth stomach of the Ox, for the cure of Indigestion and Dyspepsia. It is Nature's own remedy for an unhealthy Stomach. No art of man can equal its curative powers. It renders GOOD EATING perfectly consistent with HEALTH. See the figure of the Ox in another part of this paper.

IT IS A FACT ESTABLISHED and well known that the Arabians attained a height in the knowledge of medicine which caused the whole world to wonder and admire. With them the science of chemistry had its birth, and it is, therefore, not at all strange that a people so eminently successful in the healing art, and so persevering and daring in character, should, by patient and untiring experiment, discover remedies far surpassing in efficacy all others, for the cure of those diseases incident to them from their mode of life. The greater part of their time being spent in hazardous and bloody warfare with the different tribes, they were subject to the most violent attacks of rheumatism, paralysis, neuralgic pains, and various inflammatory diseases, as also the most horrid wounds, sprains, bruises, tumors, swellings, diseases of the joints, &c., &c. All those diseases they were so surprisingly efficient in curing, that the uninitiated looked with wonder, and attributed their skill to the powers of magic. H. G. FARRELL'S ARABIAN LINIMENT is a composition of balsams and oils, from rare plants peculiar to this country, and it was by the use of the article compounded from these remedy, that not only their physicians, but even the wild Arabs of the desert were enabled to perform such marvelous cures. *The Arab world is world renowned for his beautiful symmetry of form*, but surpassed speed and agility, and the incredible fatigue he is capable of enduring. Why is it? Because from the time of his birth his limbs are carefully washed, and upon the first appearance of disease the magic lotion is applied, and such things as confirmed sweeny, pall evil, fistula, ringbone, scratches, spavin, lameness, etc, etc, are unknown. The same result will follow in all cases where H. G. Farrell's Genuine Arabian Liniment is used in time. Therefore delay not in procuring a good supply of it, for every dollar spent in it will save you twenty, and a great deal of suffering, if not your life.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because it has using the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the equivocal mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor, and wholesale druggist, No. 17 Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by E. F. Russell, Oldtown, French & Hamilton, Dexter. Geo. Parcher, Ellsworth. F. O. Plaisted, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 25 and 50 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c.

PENOBSCOT and KENNEBEC

RAIL-ROAD STOVE!

The above named STOVE, which for durability of material, beauty of design, perfectness in all its cooking apartments, is acknowledged by all who have seen and used it, to be the most perfect Cooking Apparatus ever brought before the public, and will be as great a favorite with the citizen of Bangor and vicinity as the gigantic enterprise whose name it bears. This being the latest Stove out, it unites the perfections and eschews the faults

Of the best Cook Stove (previously) ever offered to this or any other people.

We have lately added to it a Broiling Apparatus, of our own invention and construction, which cannot be equalled for simplicity or neatness, by any other mode. With this arrangement Beef Steak may be broiled with chips or shavings, without smoking the room or letting smoke into the room as in the old way. Call and see our Apparatus, all who intend to purchase, and be convinced of its superiority. We are the sole proprietors and manufacturers of the P & K R R Stove, and it cannot be purchased at any other place in this city. We make a liberal discount to country traders.

ALSO—

ELEVATED and LOW OVEN STOVES of various sizes.

To the Hon. Senate and House of Representatives in Legislature assembled.

THE undersigned, interested in the Lumbering operations on the Penobscot River or its tributaries, beg leave to represent, that for many years last past, notwithstanding we have paid a liberal toll for the security and rafting our logs, our interests have been neglected, our property sacrificed and our patience severely taxed, by neglect and improper management of the Penobscot Boom Corporation.

Among the complaints we have to make are the following

Our logs have been suffered to escape from said Boom at times, in large numbers, in consequence of gross carelessness or inexcusable neglect.—Large numbers of logs have been lost frequently in said Boom, at the present time, from mismanagement solely for the want of proper regard to our interests, and from a penurious policy pursued by its owners, a large fund has accumulated in the hands of said Corporation, for prize logs disposed of, no part of which has ever been divided, notwithstanding the charter expressly provides and declares that said fund shall be divided equally among the owners of logs in proportion to the several amount they may have come through said Boom. A large fund has also accumulated in said corporation for what has been denominated "stray marks." (when in fact a large proportion were regular marks) and instead of having been fairly applied, said, and the money deposited with the County Treasurer, with the several marks accompanying them, so that the true owner could recover the same, all have been promiscuously sold or used by said Boom Corporation, and the money withheld, contrary to the provisions of said act.

Your remonstrants humbly, yet earnestly ask that these and other grievances, not here enumerated, (and which will more fully appear) before a committee of investigation, may be redressed by the enactment of a law, with such penalties attached, as shall secure to us our just and equitable rights.

J T K HAYWARD, and 24 others

STATE OF MAINE.

House of Representatives, Feb 3, 1853

ON the Petition aforesaid, *Ordered*—That the Petitioners cause an attested copy of their Petition, with this order thereon, to be published two days in succession in the Daily Whig and Courier, and in Daily Mercury, papers printed in the city of Bangor, the last publication to be three days at least before the fifteenth day of February next, that all persons interested may then appear and show cause, (if any they have,) why the prayer of said Petition should not be granted.

THE GREAT REMEDY FOR

Coughs, Colds and Consumptions.

THE *VEGETABLE PULMONARY BALSAM* is probably without a parallel in having, during a period of more than *Twenty-five years*, fully maintained the high reputation which it has acquired for CONSUMPTIVE COMPLAINTS, and all DISEASES of the LUNGS, THROAT and CHEST. It has been used with probably greater success than any other article known, and Physicians who have had an opportunity of witnessing its highly salutary effects, recommend it as a safe and very efficacious medicine, equal if not superior, to any other prescription for the above complaints within their knowledge. The basis of this Medicine was a private recipe of a distinguished Physician in one of the neighboring States, and was preserved by an individual to whom it gave the astonishing relief. It is composed of vegetables, and if used according to direct ons, must be perfectly safe.

From Messrs Allen & Co., Merchants, Cincinnati—"Those persons who have used the Vegetable Pulmonary Balsam, uniformly speak of it as a valuable medicine, from the quantity sold, notwithstanding the numerous other preparations used for similar complaints, we place it first on the list.

Respectfully, &c,

ALLEN & CO.

The Editor of the *Sentrel Rails Courier* says,—"We have on occasion to witness the good effects of the Vegetable Pulmonary Balsam in our family, in case of a relative lady who has been not only cured of Consumption by the use of it, and also in severe coughs and colds, and cheerfully bear testimony to its being a safe, convenient and very efficacious medicine in cases of that description."—Cold Courier

A Clergyman from Philadelphia writes, that he has been in the habit of using the Vegetable Pulmonary Balsam for himself and family for the last thirteen years, and feel of recommending it to his friends, and considers it an invaluable remedy for all pulmonary complaints.

"In the last five years of my practice I have had the satisfaction to witness the beneficial effects of Vegetable Pulmonary Balsam in many cases of obstinate coughs and other affections of the lungs. I would therefore cheerfully recommend its use to all complaints of the chest, as being equal if not superior to anything used within my knowledge."

Dumfries, N. H. TRUMAN ABELL, M. D.

BEWARE OF COUNTERFEITS AND IMITATIONS! Such are Carter's Compound Pulmonary Balsam, American Pulmonary Balsam, and others, in part using the name! Enquire for the article by its whole name of the

VEGETABLE PULMONARY BALSAM,"

and see that it has the written signature of Wm. Jenkins on a yellow label, on the blue wrappers. Each bottle and seal is stamped "Veg Lab Pulmonary Bal."

Sold by REED, CUTLER & CO Importers and Dealers in Medicines, Paints, Chemicals and Dye-stuffs 33 India Street, Boston, and sold by Druggists, Apothecaries and Country Merchants generally. PROPOSALS

FOR CARRYING THE MAILS IN THE STATE OF MAINE.

Extract from the act of Congress of 3d March, 1845, section 19.

"And be it further enacted, That it shall be the duty of the Postmaster General, in all future letdings of contracts for the transportation of the mail, to let the same to every case, to the lowest bidder tendering sufficient guarantees for faithful performance, without other reference to the mode of such transportation than may be necessary to provide for the celerity, certainty, and security of such transportation; nor shall any new contractor hereafter be required to purchase out or take at a valuation, the stock or vehicle of any previous contractor for the same route."

☞ Bidders will be careful to read the forms and instructions appended to this advertisement. They are requested to state, in their proposals, the mode by which they intend to convey the mail. Where the size and weight of the mails, or the speed called for in the schedules, shall require it, the contracts will be made for coach, steamboat, or railroad conveyance, as the case may be, and, consequently, such routes will be let to bids proposing such modes of conveyance. In all other cases, the routes will be assigned to bids proposing the cheapest mode of transportation.

☞ Railroad companies are especially notified that their regular bids must be understood as including the supply of each office on the line of their respective roads, not over a quarter of a mile from a depot. Separate proposals for offices more than a quarter of a mile off will be considered.

PROPOSALS for carrying the mails of the United States from the 1st day of July, 1853, to the 30th of June, 1857, inclusive, in the State of Maine, will be received at the Contract Office of the Post Office Department, in the city of Washington, until 9 a m of the 4th of April, 1853, (to be decided by the 25th of April, 1853,) on the routes and in the manner and time herein specified, viz:
